Let It Shine is inspired by Tyler's belief that everyone has a special gift, talent, or skill that they are born with. But sometimes we need to take a step back and put ourselves in check if we feel like we are not living up to our potential. "I want the world to know that you can be whoever you want to be, but sometimes the best decisions are made early on in your life. It is important to go through those tough times so that you can realize what you've got. But it's never too late for a change if your inner voice is guiding you." Let It Shine is a mix of soulful lyrics and uplifting melodies that will have listeners feeling inspired one minute and then wanting to dance their cares away the next. Tyler James Williams' album was inspired by his desire to make people happy with one of the deepest messages he has ever written. "I have always wanted to create music that makes people feel good. Whether it is a love song or a song about being at your best, I just want people to feel empowered." Tyler James Williams' music career began when he was 17 with the release of his first studio album. Two years later, he released his second album called Don't Forget To Remember with rapper Krayzie Bone titled It's All Good Part 2 on Koch Records.
